

APPENDIX F-137

WEAPON SYSTEM ITEM FILE WRITEOUT REPORT

1. PURPOSE

Provides authorized weapon system personnel at all centers and HQ a listing of all NSN applications primarily for periodic service reconciliations of center data base records against the services data base records. Additionally, the report may be useful to other authorized personnel to analyze certain items or systems in other areas. The report is available by Service, RIC (From), WSDC, TOC, WSGC, or FSC, depending on the intended use required.

2. ORIGIN

Prepared as a result of the Weapon System Support Program.

3. FREQUENCY

Prepared on an as required basis. Reconciliation requests are determined by the various services, usually at set quarterly, semi-annual intervals.

4. FORMAT

a. Heading Line: Standard Identification.

(1) MM/DD/YY - Month/Day/Year, this field represents numeric date (00/00/00) of the reporting period month for the data activity reflected thereon.

(2) Item File Writeout Report F-137 For (_____) - This field reflects the in-the-clear title of the report where the blank is filled by the major sequence requested (see subparagraph 4b(1)(2) below).

(3) S9(X) - Routing Identifier Code, appendix A-137, this field reflects the center RIC (S9C, S9G, etc.) of the site for which the report data is generated.

b. Data Organization:

(1) Sequence:

(a) Major: By center RIC:

1. SVC(X) - Service Code (x), appendix A-161, and including the National Weather Service (R) and the Federal Aviation Administration (B).

2. RIC_FRXXX - Routing Identifier Code From (XXX), appendix A-2.

3. WSDC XXX - Weapon System Designator Code (XXX), appendix A-38, part 1.

4. TOC X - Transaction Origination Code (X), appendix A-22, this version only includes a total count of lines at the top right (under the center RIC in the title line).

5. GRP X - Group (X), this field contains the Weapons System Group Code (WSGC), appendix A-44, part 3, and is the only version of the report where the GRP data element column is first ahead of the WSDC column.

6. FSC XXXX - Federal Supply Class (XXXX), this field contains the first four numbers of the National Stock Number (NSN) for all weapon system data base WS1 records included on the report for this request criteria.

(2) Number of lines per page: Varies.

(3) Spacing: Single-spaced.

(4) Page Break is by: Data overflow.

(5) Required Totals: A total line count is required for only the TOC request version of the report. No other totals are required.

c. Captions of Data Elements:

(1) WSDC - Weapon System Designator Code, appendix A-44, part 1, this field contains the WSDC from the weapon system application data base WS1 record meeting the request criteria. The two exceptions to the WSDC column being first are as follows:

(a) When the request criteria is for GRP (WSGC), appendix A-44, part 3, only, the GRP column will appear first, ahead of the WSDC column, on the report.

(b) When the request criteria is for TOC versions only, the Count: xxxxxxxx field (in the upper right corner under the center RIC) will contain the total number (count) of lines contained on the report.

(2) NSN - National Stock Number, this field contains the NSN from the weapon system application data base WS1 record meeting the request criteria.

(3) RIC Frm - Routing Identifier Code From, this field contains the RIC From address from the weapon system application data base WS1 record meeting the request criteria.

(4) Trans Date - Transaction Date, this field contains the transaction date from the weapon system application data base WS1 record meeting.

(5) TOC - Transaction Origination Code, appendix A-22, this field contains the internally assigned TOC from the weapon system application data base WS1 record meeting the request criteria.

(6) WSEC - Weapon System Essentiality Code, appendix A-38, part 1, this field contains the WSEC from the weapon system application data base WS1 record meeting the request criteria.

(7) WSMC - Weapon System Maintenance Code, appendix A-38, part 2, this field contains the WSMC from the weapon system application data base WS1 record meeting the request criteria.

(8) Last Recon Date - Last Reconciliation Date, this field contains the date (MM/DD/YY) of the last reconciliation for the record or else the field is blank.

5. DISTRIBUTION AND RETENTION

This report is converted to transceivable media to conform to the various service data base configurations as required. The report is retained by the requesting personnel until the report has served the purpose for which it was intended.

6. PROCEDURES FOR REVIEW AND PROCESSING

This report is generated at the request for reconciliation of Services' data base records with the WSDBs at the DSCs, or as a result of inquiry requests. The services reconcile their files on a quarterly, semiannual, or annual basis and submit corrections for discrepant records. Center/DLSC inquiry requests for the report are used in conjunction with other related reports for review and analysis. This report is included as a part of the DLSC compilation of the RCS DLA(M)516(O) Report. Refer to appendix E-389 P and chapter 51 for more detailed processing procedures and information.
